AT Dear

We are in the process of reviewing the Top Secret CIA originated documents in our possession for possible downgrading or declassification. In the course of our review, we have determined that the documents on the enclosed list do not disclose information relating to the AEC which warrants Top Secret classification.

We would appreciate your review of the documents listed and informing us whether or not the Central Intelligence Agency concurs in the classification changes proposed on the enclosed list.

Sincerely,

Murray L. Nash, Deputy Director
Division of Classification
